**TWO-STAGE PUMP FOR CRIMPING APPLICATIONS
PG1203-CP**

- 6 hp Briggs & Stratton engine.
- Manual control valve.
- High-pressure safety relief valve.
- Protective roll cage.
- For use with single acting tools.

PG1203/4S-CP

- 5.5 hp Honda OHV-type engine.
- Solenoid valve with remote hand control with 10' cord.
- Two-stage pump for rapid advance.
- High-pressure safety relief valve.
- Protective roll cage.
- For use with either single or double-acting tools.

Pumps

Hydraulic Hoses

Heavy-duty and thermo plastic hydraulic hoses to meet your requirements and safety factor.

Refer to the accessories section for details.

CAUTION

DESIGNED FOR CRIMPING APPLICATIONS ONLY!

This system should not be used for lifting.

Ordering Information

Pumps

Features

GASOLINE POWER IDEAL FOR REMOTE LOCATIONS.

- A logical choice at work sites where electricity or compressed air are unavailable. For single or double-acting cylinders at operating pressures up to 10,000 psi.
- All gasoline engine/hydraulic pumps feature Posi-Check® valve to guard against pressure loss when valve is shifted from “advance” to “hold.”

PG303 and PG304 (Up to 75 Ton)

- Powered by a 4-cycle, 2 hp Honda engine giving it the lowest weight to horsepower ratio of all gasoline driven pumps.
- Has an aluminum reservoir with 375 cu. in. of usable oil.
- PG30 series pumps are equipped with roll cages to protect pump from damage.
- PG303 is for single-acting cylinders, has a 9520 valve with separate internal return line which allows oil from running pump to return to reservoir, independently of cylinder return oil, when valve is in “return” position.
- PG304 is for double-acting cylinders, has a 9506 4-way (tandem center) valve.

PG553 and PG554 (Up to 150 Ton)

- 6 hp Intek “Diamond Edge” 4-cycle, by Briggs & Stratton.
- 5 gallon reservoir.
- PG553 has a 9520 3-way valve for single-acting cylinders.
- PG554 has a 9506 4-way valve for double-acting cylinders.
- Optional roll cage available.
